ASPHALT CEMENT INDEX PRICE ADJUSTMENT

Pursuant to terms of the bid invitation for bids awarded February 2012, the price of CRS-2 Asphalt Emulsion may be adjusted monthly based on the cost changes for the asphalt used in the Bituminous Surface Treatments. The standard indicator shall be the “*Asphalt Cement Index*” in the Alabama Department of Transportation Construction Bureau, Subarticle 109.03(e) of the *2012 Standard Specifications for Highway Construction*.

The “*Asphalt Cement Index*” is computed by the Alabama Department of Transportation by determining the average unit price quoted for asphalt cement to the nearest cent each month.

The actual amount of adjustment will be determined by multiplying the difference between the current month’s index and February 2012, Alabama Department of Transportation “*Asphalt Cement Index*” by the amount in gallons of liquid asphalt used in the Bituminous Surface Treatments shown on the invoice.

Application rates will be based on Subarticle 401.01 (b), Bituminous Treatment Table, *2012 Standard Specifications for Highway Construction*.
